MONTANA FOURTH JUDICIAL DISTRICT COURT

IN RE THE SEARCH OF: The person of Diane Field	Case No.: SW- <u>22 - 932</u> APPLICATION FOR SEARCH WARRANT
---	---

I, Stephen Deibert, a duly sworn law enforcement officer of the Missoula County Sheriff's Department, hereby state under penalty of perjury:

THAT I have reason to believe that the following crime has been committed in Missoula County, Montana:

**Deliberate Homicide (§ 45-5-102, MCA);**

THAT the evidence, contraband, or persons connected with the aforementioned crime(s) include:

- Deoxyribonucleic acid (DNA) evidence from the person, clothing, or item identified herein, to include saliva, semen, blood and/or other bodily fluids, transferred during direct or indirect physical contact.
- Examination of the person, clothing, or other items identified herein for evidence of direct or indirect physical contact.
- Blood and/or urine samples from the person, clothing, or items identified herein.
- A DNA reference standard from the person, clothing, or item identified herein.
- Buccal Swab
- Clothing to include shoes, socks, shirts, under garments, pants and outer wear
- Blood evidence

THAT I have reason to believe that the evidence, contraband, or persons connected with the aforementioned crime(s) may be found:

**Upon the body of Diane Field or collected from the staff at St Patrick's Hospital removed during medical evaluation.**

THAT the facts which establish probable cause to believe that the aforementioned crime(s) have been committed are attached hereto:

**On September 25, 2022, Monte Field called 911 to report that his sister (Diane Field) beat**

1 their mother. Monte reported that his mother was badly beaten and bleeding from the  
2 head. Monte also reported that his mother was unconscious.

3 At approximately 1226 hours Deputy Merrill and Deputy Weber arrived at the address  
4 5675 Donovan Creek Road. When Deputy Merrill entered the residence he noted the  
5 victim, Delphine Field laying on the floor with blood on her head and on the floor  
6 underneath her. Deputy Merrill rolled Delphine over and checked for a pulse. He was  
7 unable to locate one. He then attempted CPR and hooked up an AED to her. Shortly  
8 after this medical arrived at the residence. A short time after medical arrived they  
9 announced that Delphine was deceased.

10 While deputies were at the address, they were able to speak with Monte. Monte told  
11 deputies that Diane had beaten their mother with an antler. Deputy Merrill stated that he  
12 noticed an antler in the residence. Prior to deputies' arrival Diane Field left the incident  
13 address and went to her other brother, Shane's, residence. While at that residence she  
14 removed her outer shirt that had blood on it. Deputy Merrill got consent from the people  
15 at Shane's residence to retrieve the bloody garment. It was also reported to deputies that  
16 Diane had a small cut on her forehead. Deputy Merrill relayed to me that Diane does not  
17 communicate well. She communicates a little through ASL but mostly uses writing.

18 THAT I have received the following training:

19 I am a Detective for the Missoula County Sheriff's Office In Missoula MT currently  
20 assigned to investigate crimes against persons as well as property crimes. I have been  
21 assigned to the Detective Division for approximately 7 years. I have been a deputy sheriff  
22 since July of 2001. I have successfully completed a Basic Police Academy at the Montana  
23 Law Enforcement Academy and I hold a Montana Basic, Intermediate, Advanced,  
24 Instructor and Supervisory Certifications governed by Montana's Police Officer  
25 Standard's and Training. I have successfully completed additional training throughout  
26 my career to total more than 1000 hours of law enforcement training. I have received  
27 specific training in crime scene processing and crime scene reconstruction, sexual assault  
28 investigations, domestic abuse investigations, digital evidence recovery, drug  
29 investigations as well as numerous other trainings that pertain to my current position in  
related to death investigations.

1 THAT I know from training and experience that:

2 **Deoxyribonucleic Acid (DNA") is the hereditary material in humans**

3 **DNA can be left as evidence at a crime scene in many forms, including in tissue, hair,**  
4 **blood, saliva, urine, sweat, mucus, ear wax, semen, and from vaginal or rectal cells.**

5 **DNA can be obtained and compared to evidence from the crime scene. The results of the**  
6 **comparison may establish whether a suspect committed the crime.**

7 **DNA can be obtained and compared to profiles contained in DNA registries and**  
8 **databases to help identify a perpetrator. DNA can also be used to link together multiple**  
9 **crime scenes.**

10 **DNA can be transferred from the victim to the suspect during the commission of a crime.**

11 **DNA can be transferred from the suspect onto the victim during the commission of a**  
12 **crime.**

13 WHEREFORE, I respectfully request that the District Court issue a *Search Warrant* as  
14 described herein.
